I expect addition support for winner project. Help winner to let project be know be another funding.

Innovations for mobile news and information should be given top priority.

It would be good to have a timeline that is published.

All participants should be in a mailing list to get notice on other things.

More information about the process.

we will expecting for the next edition of the fire award

This was not a fair process. Reminded me of the typical corrupt African systems.It's time to end corruption and nepotism in Africa. In the future, I expect a very fair and professional process.
